Technical Data Sheet No. 2211021219

Denomination ELIOCRYL ENAMEL SATINATA

Description Multifunctional Satin Enamel Paint for Extended Surfaces

Product Details

Stain-resistant, water-dilutable, acrylic enamel paint for indoor and outdoor applications. An important feature is multifunctionality, that is the ability of the product to easily anchor on almost all types of masonry, plaster, glass or metal substrates, after the application of adequate primers. It is advisable to use it with a low-thickness short-nap roller, thus obtaining a smooth and homogeneous surface with a pleasant aesthetic and decorative effect.

**VOC Classification
(Directive 2004/42/EC)**

Interior/Exterior Trim and Cladding Paints for Wood, Metal or Plastic
EU limit value for this product (cat. A/d): 150 g/l (2007), 130 g/l (2010)
This product contains max. 130 g/l VOC

**Surface Preparation &
Application**

NEW SUBSTRATES

Interiors:

Apply a layer of Eliofond Acrilico water-based fixative, after adequate preparation of the substrate (filling with Supermuralstucco paste filler).

Exteriors:

Brush carefully, removing any fragments of inconsistent plaster. Level any imperfections with an adequate mortar and complete surface preparation with Eliofond Acrilico. In the case of very crumbling surfaces, we recommend the use of Eliowall Solvent-Based Primer.

PAINTED SUBSTRATES

Interiors:

Remove any trace of old poorly anchored or peeling paint.

Cover up any surface imperfections with a suitable quick-setting powder filler (Stuck 84) for cracks and deep holes, and with paste filler (Supermuralstucco) for superficial defects and/or total fillings.

Apply a layer of Eliofond Acrilico water-based fixative.

Exteriors:

Brush carefully removing any parts of poorly anchored old paint, ensuring the surface is clean from dust and dirt.

Proceed in the same way as for new substrates, using only Eliowall Solvent-Based Primer.
